MARTY80's WHITEPAPER

www.marty80onkaspa.com

Introduction

MARTY80's (MARTY) is a new community-driven and entertaining cryptocurrency designed to capture the playful spirit of memecoins while leveraging the unique speed and efficiency of the Kaspa blockchain. Inspired by heroes from 80s movies and TV shows, MARTY aims to become the favorite memecoin for pop culture enthusiasts and blockchain users alike.

Origins of Marty the pug

Marty is a 4-year-old Pug and the companion of a CTO managing multiple Datacenters across Europe. Since he was a puppy, he has accompanied his owner to work, and the tech world holds no secrets for him! Like his "dad," Marty is a big fan of the 80s and sometimes escapes into his dreams, living out wild and exciting adventures.

Story of MARTY80's

In a world where neon lights brighten the nights, where the roar of engines blends with synthwave music, and where heroes stand out as much for their style as their bravery, Marty, a pug with impeccable charm, is about to change the course of history. Inspired by iconic 80s masterpieces like *Top Gun*, *Miami Vice*, *Back to the Future*, *Days of Thunder*, and *Cocktail*, this charismatic pug never goes anywhere without his signature Kaspa sunglasses, an accessory that reflects both his elegance and rebellious spirit.

It all begins when Marty discovers a mysterious arcade machine called *Neon Rush: Mission Miami* in the back room of a trendy Miami bar. When he inserts a coin to play, he's suddenly enveloped in a blinding light and wakes up... in the 1980s. Trapped in a time where everything is as glamorous as it is dangerous, he learns that to return to his own time and save the future, he must infiltrate the Miami police force and dismantle a criminal network threatening to plunge the world into chaos.

Dressed in a perfectly tailored three-piece suit, with his Kaspa sunglasses gleaming under the Miami sun, Marty blends into the elite police team. Between high-speed chases in Ferrari Testarossas, glamorous beachside parties, and dangerous conspiracies, he discovers that every action he takes could alter the timeline. But the challenges are mounting: a ruthless gang leader, a sharp detective who starts to question his story, and a race against time before the arcade machine leaves him stranded in the past—or erases him entirely.

Why Kaspa ?

The Kaspa blockchain provides an ideal technological foundation for MARTY thanks to:

- **Speed and Scalability**: GhostDAG technology enables fast and efficient transactions, outperforming many competing blockchains.
- **Security**: A robust architecture ensures asset protection and transparency.
- **Decentralization**: Kaspa maintains a high level of decentralization, fostering user trust.
- **Ultra-fast transactions**.
- **Reduced costs**.
- **A scalable infrastructure tailored to the needs of modern users**.

Tokenomics

FAIR LAUNCH - NO ALLOCATION - NO PREMINE - NO PRE SALE - NO VC - 100% DECENTRALIZED

Supply : **88** B of MARTY

Initial MC: **1 M** of KAS

Limit per mint : **88** K / KAS

Launch on 10/12/24

Why "88" ? In reference to a well-known movie, here's a clue for you:
"Where we're going, we don't need roads." I'm sure you've guessed it ;-)

ROADMAP

Phase 1 (Oct-Nov 2024) :

- Token launch on Kaspa network (KRC-20)
- Website and social network

Phase 2 (Déc2024-Q1 2025) :

- Marketing campaigns
- Listing all DEX and CEX KRC20 compatibility
- Website V2

Phase 3 (Q3 2025) :

- Global events, promotions
- Partnership with a major graphic developer

Phase 4 (Q4 2025) :

- Merchandising Walkman player, audio tape with playlist, boombox, badges, partnership with a major brand for sunglasses….
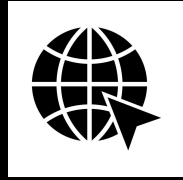

Phase 5 (2026) :
- mini serie of Marty80's

Donate

We will use our own funds to secure the initial listings, but your donations, even the smallest ones, will be greatly appreciated to help us move forward more quickly.
